

**Listening and reflection questionnaire**

We would like to include you in this process, therefore, if there is any way you would benefit from some help in engaging with or filling out this questionnaire please to speak to James, Tricia, the leaders or anyone else you know. Thank you.

If the spaces are too small please, continue on additional sheets or the back pages of each section.

If you aren't able to engage with the style of any of the questions that is totally fine – please feel free to draw a picture on the back pages, or free write what you think God is saying in your own way.

**Trinity - Listening to God – God first**

This process is for God, so we are seeking God first.

We're part of God's big picture, a story that God is creating. A story that includes you, me, the other and PBC but also the whole world. So as God invites us to share in this story and delight in what God is doing, something that might help us engage with the idea of hearing God, might be thinking about what's happening as though it was a story God is writing. This may be looking at events in your life or others and trying to think of what God is doing. Hence, let's ask ourselves, what is the story God is writing at the moment regarding these different elements.

What do you hear/sense/see/experience God saying to you about our World at the moment?

What do you hear/sense/see/experience God saying to you about our Country at the moment?

What do you hear/sense/see/experience God saying to you through God's creation/the environment at the moment?

What do you hear/sense/see/experience God saying to you about our local community in Paignton (or the Bay) at the moment?

What do you hear/sense/see/experience God saying to you through others you know or have met?

What do you hear/sense/see/experience God saying to you?

Any other comments or reflections?

**We – Listening to God – What is God saying to you about our fellowship at PBC?**

We are part of a wonderful church here at PBC. This section is about what we think God is saying to us collectively at PBC. One of the benefits of this section is to hear about what we feel God is saying for our church and community to start or restart activities throughout the week.

What do you think God would like people to say about PBC as a church?

What story do you think God is writing or would like to write for our future?

What do you feel God is doing in the Bay and is there something missional we could join in with as a church in the Bay?

What do you love about PBC and what do you feel could change?

Any other comments or reflections?

**You – Listening to God - You are a vital part of PBC and God’s work here!**

So.....how are you?

Do you feel included at PBC? If not, is there a way we could help you feel more included?

What do you feel God might be calling you to with PBC in the future?

Is there anything you would like to do (or do more) at PBC? This could be missional in the community or during our Sunday services

Any other comments or reflections?

This section will be kept separate from the rest of the questionnaire to allow for anonymity in prayerful review, discussion or future reflecting back.

For GDPR we require your consent for your name to be held on a database regarding this listening and reflection time, do you consent to this?
